PETTIS DRY GOODS COMPANY.

WAS BURIED ALIVE.

Cave-in of a Sewer That Nearly Ended the Existence of Joseph Marquis.

It doesn't fall to the lot of the ordinary man to be buried alive three times in one summer, but Joseph Marquis, of the contracting firm of Doe & Co., met with his third experience of that sort yesterday, and it came very near being his last experience of any sort.

The firm he is connected with is laying a pipe sewer in the alley between Hoyt and Lexington avenues. Yesterday afternoon, about 5 o'clock, while Marquis was in the bottom of the ditch, joining two sections of pipe, the side caved in and buried him beneath nine feet of the damp yellow clay.

A dozen workmen instantly fell to and worked with a will and in a remarkably short space of time they had dug down to him. He was pulled out, completely exhausted and more dazed than before, but still conscious. After an hour's work by physicians he was brought around all right and removed to his boarding house, suffering from nothing more serious than a bad wrench of the arm.

This is the third time he has been caught in a cave-in this season, but the other two calls were not nearly so close as this one.

CHARGED WITH EMBEZZLEMENT.

Canvasser for an Installation House Arrested for Sequestering Clocks.

W. J. Wilson is in the station house, charged by the American Wringer Company with embezzlement. Wilson was arrested last night by L. V. Grater, manager of the office at No. 57 Indiana avenue, after a hot chase of several squares. Wilson came here from Ohio two weeks ago and went to work for the company, selling the articles which they handle. It is claimed that he sold two clocks valued at nineteen dollars to customers to whom he gave forged leases and pocketed the first payments.

The company has been looking for Wilson for the past week, and last night Manager Grater discovered his man on an East Washington street car. Grater boarded the car as Wilson jumped off and ran, but the manager was himself something of a sprinter, and after chasing the fleeing agent over several miles of territory succeeded in running him down near the engine house. With the assistance of the firemen he held the prisoner until the police could take charge of him.

Death of the Party.

New York Advertiser.

President Dole, of the Hawaiian provisional government, is holding out as best he can, but he expresses the opinion that unless the United States interfere in behalf of the liberty loving people there the islands will fall into the arms of England.

That would be bad, but such an event would sound the death knell of the Democratic party.

One rounded teaspoonful of Cleveland's Baking Powder does more and better work than a heaping teaspoonful of others.

A large saving on a year's bakings.

Want the Reduced Rates Earlier.

The citizens' executive board satisfied with the railroad rates to the encampment secured from the Central Traffic Association, but would like to have them effective for coming to Indianapolis from the 1st of the month instead of the 3d, 4th and 5th of September, as adopted. Executive Director Fortune has written to Chairman Lazarus, of the committee on transportation, stating that the greater number of arrivals will be in the latter part of the month and that thousands, to enable them to be here on time for the parade, will wish to start on the 2d of the month. Again, the time of the beginning of the low rates is now fixed, will shut out the naval veterans, whose encampment is to begin on Sept. 1.

Other organizations incidental to the parade, and also desirous of holding their meetings previous to the encampment week, would be denied the privilege of the one-half rate under the present arrangement. The executive director asks if the dates of coming to the city could not be changed so as to begin on the 28th of August instead of the 3d of September.

Elaborate Souvenir Programme.

The committee on programmes has arranged for a very elaborate one, which will be issued as a souvenir. It will be a very elaborate one and enough of them will be printed so that every visitor may carry away one with him. It will be issued under the direction of the citizens' executive board and will contain histories of the G. A. R., Sons and Daughters of Veterans, with portraits and biographies of officers of all the organizations.

An account of the efforts of Indianapolis to get the encampment, followed by a sketch of the city will be given. The programme for the city will be given as well as the sketches of officers of all the organizations.

An account of the efforts of Indianapolis to get the encampment, followed by a sketch of the city will be given. The programme for the city will be given as well as the sketches of officers of all the organizations.

Post Assigned Quarters.

Requests for quarters being pouring in on the executive committee, coming from posts, individuals and small parties. Some signify that they do not desire free quarters, and ask to be directed to boarding places. Quarters assigned yesterday were as follows:

Union Post, No. 229, Laddonia, Mo.; Weisner, No. 330, Grand Rapids, Mich.; 34 Myers, Pana Post, No. 411, Pana; Post No. 289, Mt. Sterling, Ky.; No. 371, Knoxville, Tenn.; No. 185, Bronson, Mich.; Post No. 57, Baltimore, Md.; and Foster Marshall, No. 387, Brooklyn, O.; 381 Snyder, No. 528, Guilford, N. C.; 20, Seymour; F. G. Wehman, No. 274, Valence; Post No. 364, Pough Post No. 284, Toronto; Harwood Post, No. 24, Dupont; E. C. Newland, No. 247, Bedford; Bostropel, No. 31, Delphi; Post Thomas, No. 3, Greensburg, Iowa; No. 4, Clinton; Samuel Reed, No. 87, Salem, all of Indiana.

Horses for the Parade.

Perhaps few people have an idea of what a stupendous undertaking it is to prepare for all of the needs of the encampment. One item alone will be that of horses, and it is estimated that thousands of them will have to be gotten from wherever they may be obtained. Frank Bird is chairman of the committee which has this matter in charge and he desires to be informed before the 5th of August the number of horses will be called upon to provide for the parade. It is essential that he should have this information, for if it is left to the last moment there will be a great deal of difficulty in procuring the necessary number of horses. This is a matter the officers of the State departments should not delay any longer and the citizens' executive board urges them to send in at once the number of horses they will require.

Daughters of Veterans.

One of the features of the encampment will be a large gathering of the Daughters of Veterans. Nellie A. King, of Mazonia, O., is the national president of the association, and she has forwarded the following programme to the executive committee:

Monday afternoon, Sept. 4, a council of war will be held, and that evening a reception of delegations by the national president and secretary will take place at 273 North Meridian street. Tuesday, Wednesday and Thursday the convention will be held in one of the churches. Tuesday evening there will be a reception at No. 272 North Meridian street to the G. A. R. and Veterans. W. K. C. Hall and family. The installation of officers will occur on Thursday evening.

To Erect the Tent.

George Eberhardt has contracted with the citizens' executive board to erect the

five hundred tents the board is to receive from the Quartermaster's Department of the United States for use during the encampment. The tents are to be delivered to Eberhardt not later than Aug. 23, and he is to have them ready for occupancy not later than Sept. 2. They will be placed in Military Park, which is to be used as a reunion grounds. Blind Institute Park, where the Sons of Veterans are to have headquarters, and courthouse square, where the several army corps are to meet.

Plenty of Water Needed.

The executive board has issued the following under the head of "Hot Weather Suggestions":

The board will have the barracks, places of reunions, halls and other localities under its control, where the old soldiers will meet, well supplied with ice water. In addition, there should be plenty of water in barrels on the streets. This the merchants can supply at very little cost. They should arrange for this, and put it in their places of business barrels of ice water and keep them full. It will please the visitors and leave with them the knowledge of hospitality, small as it is, conscious that no veteran need suffer from thirst. The Washington committee and citizens did nothing of this kind, and in consequence, there was more or less discomfort. The streets should be lined with water barrels.

West Indianapolis Doing Her Share.

West Indianapolis is coming to the front with offers of aid, and yesterday Secretary Rogers, of the West Indianapolis association, was at headquarters. The West Indianapolis people are anxious to do all they can in procuring the comfort of visitors. They offer the use of their school-houses and churches for sleeping quarters, and many citizens express a willingness to take the veterans into their homes. About 2,500, Secretary Rogers says, can be accommodated.

County Organizations.

Large numbers of the veterans are coming as county organizations, and will be registered as such. Commander Fenton, of Kenosha Post, Danville, Ill., writes that the posts of his county will come in a body.

They were at the Washington encampment that was held there last year. Here they expect to be represented by three hundred or more, and have asked for free quarters for that many. The posts in Washington and Fountain counties, this State, will do the same.

Where the Baggage Will Be Handled.

D. F. Whitcomb, superintendent of the Union Railway Company, yesterday closed deal with the proprietors of the Dickson storage house through which he secures the lowest story of their large building for handling the baggage of the Grand Army of the Republic. The company has abandoned the idea of erecting a large shed in the Vandallia yards for that purpose.

Ladies of the G. A. R.

Among the national organizations that will hold their annual meeting here during the encampment, is that of the Ladies of the G. A. R. It is altogether similar in plan to that of the G. A. R. Here they expect to be represented by three hundred or more, and have asked for free quarters for that many. The posts in Washington and Fountain counties, this State, will do the same.

Musical for the Reception.

Zumpfe's orchestra of forty pieces has been secured for the reception of the encampment officials and delegates Thursday night, Sept. 7. The full orchestra is to be retained for the dance to follow the reception. There is to be one rehearsal of the chorus and orchestra under the direction of Prof. Barus.

Encampment Notes.

Sol Meredith Post, Richmond, has sent in an application for quarters for fifty additional veterans.

Pap Thomas Post, of Greensburg, has a membership of 201, and its commander reports that number will be here with the parade.

The committee on public order and decoration will meet at 8 o'clock this evening and that on illuminations at 4 o'clock this afternoon.

Capt. Wallace Foster is making preparations for a special patriotic display during the encampment. It will be one of banners and soldiers' orphans.

In the application for rooms the request is made that they be placed as near as possible to the encampment hall and line of march of the parade.

McPherson Post, No. 7, of Crawfordsville, will be here with 300 men, all in uniform. They will be under the command of the 4th and remain throughout the week.

The veterans of J. E. Coomer Post, Ashley, O., are evidently coming to see it all, to see the general encampment, stay in the city, they have replied, "Until we get ready to go home."

The Young Women's Christian Temperance Union offers its rooms, No. 16 and 17 North Meridian street, to the members of the W. R. C. during the encampment. The young women will also serve there a luncheon for their visitors.

Indiana Crop Bulletin.

The following advance copy of the Crop Bulletin for Indiana, compiled by the Indianapolis Weather Bureau in co-operation with the Agricultural Experiment Station at Purdue University, has been issued:

MONDAY, July 24.—The temperature during the past week averaged near the normal, with the maximum at 85° and the minimum at 65°. The average was favorable for the crops, which are growing rapidly, and reports are almost unanimous in indicating a good yield, both in quantity and quality. The little present crop, also excellent and hay was saved in fine condition. Potatoes and corn are suffering severely from drought in most sections of the State. The weather is hot and dry. Potatoes are doing some injury, and rust has been noted in the late oats. Pastures are very dry and vegetables are in poor condition. In the southern portion of the State, corn, potatoes and tobacco are generally in good condition. Reports indicate that there is promise of an excellent melon crop, but fruit is falling from the vines, and apples especially, will be very light.

Pet Edward A. Padonck, Weather Bureau.

Robbed While Bathing.

A telephone message was received at the police station last night to the effect that Joe Cain and William Commons were swimming in Pleasant run, near Coy's roadhouse, with two women. While the bathers were in the water two unknown men came along and appropriated all the clothes and their contents. The men gave chase to the thieves, who ran, and after taking from them everything of value, dropped the clothes. They secured two gold watches and \$27 in money. One of the women is said to be the wife of one of the men who were in bathing. The name of the other woman is unknown. Sergeant Cain and Commons were taken to the police station by a telephone call at the police station for an officer, but he was unable to find any clue to the identity of the thieves. Both men reside near the house.

Was Anyone Drowned?

Oliver Henry, a young man residing at No. 217 South Illinois street, reported at police headquarters last night that a man was supposed to have been drowned in White river, three-quarters of a mile south of the Belt railroad bridge. Henry's fears were aroused yesterday when he found a suit of clothes lying on the river bank. The outfit consisted of pants, coat and vest, and the shoes were absent. Henry, leading from the bundle of clothes to the river, was alarmed and he reported the matter. In a pocket of the vest was found a watch, which he took to the police station. Henry was almost run to the saloon of Mr. Jones, where they remain unidentified. Henry was told by the police to find the owner of the discarded clothing.

## NEW SYSTEM BEING TRIED

Citizens' Company Dispenses with Road Officers for Division Superintendents.

The City to Be Divided Into Districts and the Newly-Created Officers Are Expected to Maintain Discipline.

Superintendent Boyd, of the Citizens' Street-railroad Company, has effected a reorganization of the car service inspection of the lines, and the new system went into effect yesterday. This work has heretofore been done by eight road officers, who had no well-defined limits, but rode about the city in rather haphazard fashion, reporting any breach of discipline they might note.

By the new system these road officers are done away with, and their places are taken by five division superintendents, two of whom come at 7 A. M. and remain until 6 P. M., and the other three working from noon until midnight. The city is divided into three districts, northeastern, northwestern and southern. Pat Griffin and Duncan Blake come on duty at 7 A. M., the former looking after the northeastern division and the eastern lines of the southern division, while the latter has the northwestern and the eastern lines of the southern up to noon. At noon Peter Noon takes charge of the southern, while John Newhouse takes the northeastern and northwestern. The northwestern each working in conjunction with Griffin and Blake until the latter are off duty, and then continuing until midnight. Their duties are to see that the time is preserved; that passengers are courteously treated, and crowds properly handled. In cases of emergency, such as a riot, they are given direct authority. Each man is held responsible for complaints of the service coming from his district, and is given authority to correct them.

Clifford Avenue Line.

The work of renewing the rails on Clifford avenue has been completed. The company promises electric cars on the avenue soon as the poles and curves for the railroad crossings are installed.

Poles on Noble Street.

The company is setting the poles along Noble street and the residents along the lines will not find a road for mules and box cars in the near future.

CADI DOING BUSINESS.

Police Court Grind Goes On, Despite the Hot Weather.

When the Cadi took his seat in the Police Court yesterday morning, he found the usual Monday morning docket of drunks, "vags," and et cetera. George Marcus had been arrested for using a private water plug while fire pressure was on. His case was continued. P. F. Kaufman was arraigned for assault and battery on his wife, and was fined \$25 and costs, and sent to the workhouse in default of payment.

Col. Weaver, who was arrested Saturday night, when the officers were looking for the escaped convict Whit Starr, was arraigned on two charges, as a known thief and allowing a convict to escape. Both cases were dismissed, there being no such charge as the latter. It was thought that Weaver, who was arrested at the same time Starr was and subsequently released, had an arrangement to meet Starr at the shanty boat which Weaver was arrested and go down the river. It is said that Starr has been seen in the city since his escape, and that his right arm is broken and is shuffling about as a result of his leap from the train.

The case against Walter Johnson, arrested for an unnatural crime, was continued until July 26.

Gambler Gets Off Free.

Andrew Jackson, a colored man, was arraigned in the Police Court, yesterday morning, for gambling. He went into a saloon on Indiana avenue and invited anybody who wished to participate in a small game of "craps." When the officers came into the saloon they saw Jackson leaning over a table and found some money and a pair of dice on the table. Jackson was taken to the Police Court.

Criminal Court Goes Fishing.

J. E. Bell was appointed judge pro tem. of the Criminal Court by Judge Cox yesterday to serve one week.

Judge Cox, Deputy Prosecutor Charles Cox, Leslie Cox, Henry N. Spain and John R. Duncan left yesterday noon for the Kanawha river, on the banks of which they will take up their residence for a week and employ their time in hunting bass.

Cases Against Motormen.

The cases against Charles Peck and William Gilbert, the motormen arrested for manslaughter, have both been continued till Aug. 18. The grand jury will convene in the meantime and the cases will be brought before it.

The Court Record.

William Smith et al. vs. Frank E. Walcott et al.; mechanic's lien. Room 2.

Hess Machine Works vs. William R. Shirley; on account. Room 3.

CITY NEWS NOTES.

Governor Matthews went to Terre Haute, yesterday, at which place he will review the Indiana troops to-day.

Judge Joseph S. Daily arrived in the city yesterday, and was quartered at Clerk Sweeney's office as a judge of the Supreme Court.

The fire department made a run to No. 20 Roskothe street, yesterday afternoon, to extinguish a fire caused by an overheated stove. The loss was \$2.

Marriage licenses were issued yesterday to Max Fredericks and Kate Deppen, Allen M. Pritchett and Almida M. Jessup, Edward Roberts and Rutledge Taylor.

The regular quarterly meeting of the State Board of Charities will be held, this morning, at the clerk's office in the Statehouse. There is no business of particular importance to be considered.

Indianapolis Division No. 35 Order of Railroad Telegraphers will give a musical and ice-cream festival at Masonic Hall Wednesday, July 26, at 8 P. M. An excellent musical programme has been arranged.

John Jones, a driver in the employ of the Brown-Ketcham Company, at Hangerville, Ind., has been walking upon a newly completed spot of asphalt pavement on West Washington street. He caused enough damage to make a case of malicious trespass, and was sent in by patrolman Cranran.

Work was begun yesterday on building the scaffolding by means of which the crowning figure is to be hoisted to the top of the "statue of the soldier" monument. The scaffolding which protected the opening at the top all winter was torn away, and the work will be pushed forward as rapidly as possible.
